

Want to do more  
with your data  
in R?

*In this September's Software Carpentry workshop, you'll learn about:*

Writing reproducible reports with knitr  
Analyzing data with dplyr  
Visualizing data with ggplot2  
Tracking code development with Git  
Debugging and defensive programming  
...along with a quick R/Unix refresher...

**Who:** Graduate students and other researchers in the BSD  
**When:** 8 am - 4:30 pm, Tuesday-Wednesday, Sept. 15-16, 2015  
**Where:** Stuart Hall 101
